THE PROPOSED RAILROAD.

Surveyors Now Running Final Lines Through Garrard County. Within Our Grasp.

As stated briefly in the last issue of THE RECORD, the Southern Railway has a full corps of surveyors in Garrard making a final survey for the new line. They located first at Burgin and ran two lines to the river. Today, Thursday, they will pitch camp at Bryantsville and work in Garrard. The party has orders to run to Lancaster, and then by the most feasible route to Jellico, where their southern lines terminate.

In an interview, the chief engineer said the connection between Burgin and Jellico was certain to be constructed, but just what route it would take he could not say. One thing was certain, he said, and that was GARRARD WOULD HAVE TO GIVE THE RIGHT OF WAY.

When our people think of the many advantages to be derived by ALL citizens from this road, we do not believe that any land owner, over which it passes, will want more pay than the actual damage to him. We do not believe we have any citizens in the county who would oppose, especially when the money to pay for land is to be made up among our own people. Not one penny of it will come off the railroad company, as our people give the right of way. The new constitution does not permit our voting a tax for this purpose, consequently the money will have to be raised by private subscription. Many men have signified their intention to contribute liberally, and there will be no trouble in raising the money, provided no one wants exorbitant, unjust and unreasonable prices for his land. As above stated, we do not believe we have any men in Garrard county so narrow-minded as to demand more money than a thing is worth, simply because he believes he has the upper hand and can set his own figures. Steps are now being taken to ascertain what each property owner will do in the matter, and then work of raising the money will begin.

Some people may think this road is bound to come here. In this thought you are sadly off. The people of Garrard once thought they had the Cincinnati Southern, and were so confident that land owners put up exorbitant figures, the citizens sat flat on their pants and did nothing and the people of Boyle hustled a little and got the road. Another case was when the L. & N. was built. The people of Boyle thought the road was bound to come to Danville and refused to offer any inducements. The result of this was the company ordered its surveyors to run the line just close enough to Danville for the people there to hear the engine whistle, and the road was built to Shelby City.

Our people should awaken to the importance of securing this line of road. It means two routes for freight and passenger travel to Cincinnati and Louisville, beside a direct line to the best coal and timber land in Kentucky. Farmers can save enough in freight on their stock, grain, hemp, etc., to more than pay their taxes, to say nothing of the money saved on coal and lumber sent here from the mountains. Now is the time to show your public spiritedness, gentlemen. If you let this opportunity slip by, never say another word about high freight, poor connections or hard times.

A meeting of the Commercial Club was held Tuesday night and a committee, consisting of Capt. Herndon and Hon. R. H. Tomlinson, was appointed to follow the line of survey as it is made, and see the land owners immediately to ascertain what they will ask for the right of way. As soon as this is done, the Club will then go to work to raise the money with which to pay the damages. If a property owner is unreasonable, the people can take the matter into the courts and let a jury determine the damage, but as the money comes off our home people, we believe no property owner will be unreasonable in his demands.

Our citizens have taken hold of the matter in earnest, and are going at it in a business-like way.

Telephone Exchange Sold.

Owing to his large practice, Dr. J. B. Kinnaird has sold the telephone exchange, and it will be incorporated under the name of "The Lancaster Telephone Co.," with A. H. Bastin, Dr. Kinnaird and James Maret directors. The enterprise still remains a local institution with some of our citizens connected with the property interests. It is the intention of the company, to make extensive improvements and fit up the most complete exchange possible. The enterprise is one of the best our town has ever had, and justly merits the support it receives.

Death of Wallace Embury Elkin.

A telegram was received yesterday by Lancaster relatives announcing the death of Wallace Embury Elkin, which occurred in Louisville Tuesday. He was the son of Garrard Elkin, formerly of this county, who left here several years ago and resided in Louisville. The family is widely connected in this and adjoining counties. Young Elkin was well known in Louisville business circles, and was a man of energy and fine business qualifications. The remains were interred at Richmond yesterday afternoon.

Waterworks Meeting.

A meeting of the City Council was held Friday night to hear expressions from the taxpayers regarding waterworks. The feeling was unanimously in favor of putting in a plant, but just how to go about ascertaining cost, was a question which required much discussion. It was finally agreed to advertise for bids, reserving the right to reject any and all propositions. J. C. Thompson and J. E. Stormes were appointed to attend to the matter, and the ad. appears in today's RECORD and will also be sent to a leading eastern paper. It has been estimated that forty to fifty fire plugs will be needed. These, together with the amount of water needed for private consumption will make a plant pay pretty well. It was also decided at this meeting that the town reserve the right to buy the plant in 5, 10 or 20 years, which is a mighty good idea.

The proposition to put in waterworks is meeting opposition, just as did every other improvement we have made. The electric lights, telephones, and, in fact everything else in the improvement line, was drenched with cold water, but those who hustle have become used to the kicking and it does not now amount to much. It begins to look like the waterworks are an assured fact, and the more the people investigate and think over the matter the more enthusiastic they become.

Republican Convention.

Chairman D. R. Collier has called a mass convention of Garrard republicans to meet in the Court House today (Thursday) at 2 o'clock for the purpose of selecting delegates to the Lexington convention July 12.

Saxton's Minstrels.

THE RECORD received a letter from Kent Storm, manager of Saxton's Band, saying they would organize a mammoth minstrel next fall, and wanted to open the Opera House in Lancaster. As no manager has yet leased the house, its impossible to make a date, but we hope arrangements to this end will be made. Saxton has the finest band in the south.

A Paint Lick Enterprise.

Adams' Fistula Salve, put up by Adams & Fish, Paint Lick, is meeting with ready sale every where. Persons who have used it say it's a marked success and a sure cure for Fistula, Pile, Swiney, Scrathees, Enlargement, Greasy Heel, etc. It is sold on a written guarantee, and money refunded if not as represented. ap-13

Narrow Escape.

Tuesday night, just before the Commercial Club met, Prof. Postel and Raymond Haselden noticed smoke coming from the City Court room. A hasty investigation showed that a sawdust spit box had become ignited from a cigar stub and had burned a hole in the floor. Instead of raising an alarm the two gentlemen quietly procured a couple of buckets of water and drowned out the flame. Had they been ten minutes later the fire would have been beyond control, and our city court building, and, in all probability, the Court House would have gone to ashes. A saw dust spit box has often caused fires which were credited to incendiaries and "spontaneous combustion."

Democratic Convention.

The Democratic county convention drew a tremendous crowd to town Saturday, but everything passed off harmoniously and pleasantly. The backers of each gubernatorial candidate were at work early in the day and some tall hustling was done. All were confident until noon, when it was whispered that the Goebel and Stone men had a card up their sleeve. Chairman Geo. T. Farris called the meeting to order at 2 o'clock and all hands were shown in the selection of permanent chairman, the Goebel and Stone men voting for Mr. Farris. Several rousing speeches were made, and the Hardin men made a strong fight to get instructions for their neighboring counties' man but the committee on resolutions brought in a report recommending that the vote be divided equally between Goebel and Stone. The following delegates and alternates were appointed:

J. A. Doty, T. A. Elkin, J. I. Hamilton, Geo. T. Farris, Letcher Owsley Thos. Dunn. The alternates are John Burnside, R. E. McRoberts, J. E. Robinson, John M. Farra, T. Cole Gully and W. B. Burton.

Owsley-Hamilton.

County Attorney Letcher Owsley and Miss Hallie Hamilton surprised their many friends Saturday evening by driving to Danville and being made man and wife. The couple has been quite devoted for some time, and while there was a general belief they would marry, yet no one thought they would so completely steal the march. Late in the afternoon they engaged a surrey and buggy. As pre-arranged, they met Miss Florence Harris, and Messrs Joe B. Haselden and Owen Shugars. The party went to Mrs. Kaufman's and got Eld. George Gowen, who accompanied them to Danville and, said the ceremony. The entire party then returned to Lancaster, where the bride's mother served an elegant lunch. Mrs. Owsley is the youngest daughter of Mrs. Hamilton, proprietor of the Hamilton House. She is a young lady of beauty and many good traits. Its needless for us to say anything of Letcher, as everybody knows him, and everybody is his friend. He has a bright future before him and we sincerely hope the pathway of the newly wedded pair will be strewn with roses. They have taken rooms at the Hamilton House. The bride received a number of nice presents from her mother and brothers, Jim, Clay, and Will.

Decorations Postponed.

For several good reasons, the Knights of Pythias decided to postpone the decoration services until a future date. The ceremonies will probably be held a week from Sunday, but due notice will be given through the columns of THE RECORD.

Digging the Cellars.

A force of men were put to work Monday morning digging out the debris of the old opera house corner. The cellars are being cleaned out, and excavations made for foundations. Messrs Ryan are getting things in shape to keep all hands going on the two buildings, the carpenters and brick layers alternating between the work. Work on the hotel is progressing nicely and the contractors are confident both buildings will be completed, ere cold weather sets in.

Judging from the following item in the Lincoln Democrat, the people over there are going to elevate hades and shove a log under it: "Stanford proposes to celebrate the 4th of July this year in a manner appropriate to the day. It is proposed to have a procession with traction and fire engines, hook and ladder companies, bells ringing, whistles tooting, floats with different business houses represented, brass bands, a choir of 100 voices, patriotic speeches, balloon ascension, bicycle races, fire works, Japanese lanterns, etc. Look out for the mammoth posters. THURSDAY, June 2, - 1899

The formation of trusts goes merrily on and if some steps are not taken to stop the evil, the people will soon be forced to pay exorbitant prices for every article used. The question of how to stop the trusts is one which is attracting much attention. These combines must be broken up, and the sooner the better. The U. S. attorney general has said it is a matter with which the government has nothing to do, but rests wholly with the states. This being the case, the people should be very careful in who they elect as representatives. It has frequently been the case that each party would nominate men who have "worked" hard for their party but are kind of misfits whom the leaders don't want in county offices. Thus they are placed on the ticket to "satisfy" a certain element. Now, if the two parties persist in nominating block-heads, the people should get together and select a good man for whom they can vote. This thing of the people having to stomach anything a few "bosses" see fit to give them has come to a point where a halt should be called. If each county will elect a representative who is a business man, and not a political tool, the next general assembly can knock the trusts sky-high, but if we are to sit idly by and see selected fellows who don't know the alphabet, then no relief can be expected.

ATTORNEY GENERAL GRIGGS, in speaking about the situation in the Philippines and the duty of the United States in regard to the islands, said: "The United States stands bound to all other countries as the responsible sovereign of the Philippine islands. It can not, consistently with its international obligations, or its own self-respect, assume any other attitude. Its title to the islands and to the sovereignty thereof is regular, valid and unimpeachable. To attempt to shift international responsibility to any ill formed or partially formed insurgent government would be to shirk a responsibility solely assumed by this country and would subject the United States not only to the ridicule, but to the just contempt of all nations."

PRESIDENT MCKINLEY is prancing about the country on dress parade, and many columns are used by the dailies to tell of his every move. People clamor over each other to get a glimpse of the high muck-a-muck, and stand for hours in the broiling sun to get a peep at him. We wouldn't walk ten steps to see the whole administration, from Mark Hannah down. The wandering Dago and his bear are much more interesting, and a circus parade eclipses it by far.

Gov. Bradley has decided to send no more soldiers to Clay county at present. His plan is to give Circuit Judge Eversole an opportunity to hold a special term of court, and if there is no improvement in the condition of affairs to call an extra session of the State Legislature. The Legislature would be asked to pass laws conferring authority on the Governor to appoint a Judge with power to summon a grand jury from distant counties.

As was expected, Admiral Dewey has declined to accept the home offered him by a lot of over-enthusiastic admirers. In this he shows his sound sense. The Admiral now places another feather in his cap by suggesting that the money raised for this purpose be used in establishing a home for disabled sailors.

LEXINGTON gets the captured Spanish cannon which was allotted to Kentucky. All Kentuckians rejoice in Lexington's good luck. That is one of the best cities within our borders. Her people are energetic, sociable and hustler at all times for improvement. It is seldom you hear of trouble of any kind over there.

KENTUCKY at present has two evils which bid fair to destroy what good name the dear old state may have left. They are the mountain feuds and Louisville politics. Of the two, we have a better opinion of the former, as it takes bravery to use guns and pistols, but any coward can buy votes, use whiskey and pull wires.

HON. W. J. BRYAN, the great silver leader, has accepted the invitation to come to Richmond, extended him recently at Louisville by the Madison County Bimetallic Club through its committee, Gov. McCreary, Hon. W. B. Smith and President Geo. M. Willing. He will deliver a speech, and the time selected is early in October.

FRENCH TIFTON has resigned as editor of the Richmond Pantagraph; his revenue duties demanding most of his attention. Mr. Tom C. Adams has been placed in the harness and will wield the editorial quill on the Pantagraph. Goodbye, French. Howdy, Tom.

A "FIDDLEE'S CONVENTION" was recently held, many old-timers taking part. It would have been a pleasure to listen to the fiddlers, for they make inspiring music. They thing to avoid is the "violinists." A first-class fiddle

is all right, but you want to make tall tracks away from a "violinist."

News comes from Washington that the census patronage in Kentucky will be held up until the Republican State Convention has been held, after which only original Taylor men will be endorsed by Senator Daboe.

A Narrow Escape.
 Thankful words written by Mrs. Ada E. Hart, of Groton, S. D., "Was taken with a bad cold which settled on my lungs, cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs, and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at R. E. McRoberts Drug Store. Regular size 50c. and \$1.00. Guaranteed or price refunded.

Our street improvements go merrily on. We will soon have the best streets of any town in the county. Some of streets had gotten to be pretty muddy and if they had not been repaired would soon have been almost as muddy as Lancaster's Public Square.

While in town the other day we heard the citizens were talking of buying a ferryboat to run on the Public Square. Of course we don't have to pay to help keep up the Square, but our country folks bring you town folks in a good many dollars, and don't like to have to swim from store to store to spend it.
 Aside from the serious inconvenience and pain caused by piles, there is a tendency to fistula and to cancer in the rectal regions. Piles should not be allowed to run on unchecked. T. A. B. Burnam & Rucker's large mills are running at full tilt now from 6 A. M. to 6 P. M., and yet they can hardly keep up with their many orders. This is one of the best managed mills in Kentucky. With years of experience, latest improved machinery and skilled help, the clever owners have justly won the reputation of making the best flour in Kentucky. Our people are very proud of the Paint Lick mills.

Madison Lodge, No. 183, F. and A. M. at Kirksville, will celebrate the 24th day of June by having a festival at or near the village. The Hon. Jas. P. McCreary, Rev. A. J. Pike, of Broadhead, Tolbert Jackson, of Richmond, will make speeches touching on Masonry, and probably others as well posted will also address the audience. It was suggested at the last lodge meeting that some two or three young ladies have essays suitable for the occasion. Lancaster, Berea, Paint Lick and Richmond Lodges are expected to meet with them and take part. Committee on arrangements have been ap-

pointed who give all an invitation to attend and join in the celebration of St. John's day. The Lancaster Band will be on hand A full supply of marshals to keep order. Ladies and children are invited. Diner on the ground for all, free of charge.

Teaching Boys a Trade.

Why is it that there is such a repugnance on the part of parents to putting their sons to a trade? A skilled mechanic is an independent man. Go where he will his craft will bring him support. He has literally his fortune in his own hands. He need ask favors of none. Yet ambitious parents—ambitious that their sons should "rise in the world" as they say—are more willing that they should study for a profession, with the chances of even moderate success heavily against them, or running the risk of spending their manhood in the ignoble task of retailing dry goods, or of toiling laboriously at the accountant's desk, than learn a trade which would bring them manly strength, health and independence. In point of fact, the method they choose is the one least likely to achieve the advancement aimed at; for the supply of candidates for positions as "errand boys," dry goods clerks, and kindred occupations, is notoriously overstocked; while on the other hand, the demand for really skilled mechanics of every description, is as notoriously beyond the supply. The crying need of this country to-day, is for skilled labor; and that father who neglects to provide his son with a useful trade, and to see that he thoroughly masters it, does him a grievous wrong, and runs the risk helping, by so much, to increase the stock of idle and dependent, if not vicious, members of society. It is stated in the report of the Prison Association, lately issued, that of 14,596 prisoners, confined in the penitentiaries of 30 States, in 1897, 77 per cent., or over 10,000 of the number had never learned a trade. The fact conveys a lesson of profound interest to those who have in charge the training of boys, and girls too, for the active duties of life—Ladies' Floral Cabinet.

Notice to Trustees.

Under instructions from the State Superintendent two Trustees were elected in each School District in Garrard County last October; the one receiving the greatest number of votes to qualify as the regular trustees on July 1 1899, and the one receiving next to the greatest number, to qualify at once to fill a vacancy supposed to be then existing. Since that election the Court of Appeals has decided that there was no vacancy at that time, but that the old Trustees hold over one year longer. Hence, the man receiving next to the greatest vote qualified through mistake and was, in reality, never a Trustee. Therefore the one who received the GREATEST NUMBER OF VOTES at the October election will be recognized by me as the legal Trustee for the ensuing term and he will accordingly qualify some time during the month of June. MRS. TOM BAKER.

She Will Take Her Children and Settle in the Indian Territory—A Fearful Outlook in Clay County.

LOUISVILLE, Ky., June 21.—R. B. Lucas, of Manchester, who is here as a delegate to the democratic convention, says the Baker-Howard feud is at an end. He says that Mrs. Tom Baker has decided to go to her father, who is a prominent farmer in Indian territory. She will take her children with her.

Dr. Lucas declares that the men who have been killed and armed in the mountains have laid down their weapons and returned to their homes and to their work. A letter and more secure feeling prevails throughout the terror-stricken section. Everybody now appears to be satisfied to let the law take its course, and the members of the factions are disposed to have peace.

Leading citizens, who have taken no part in the feud, are now endeavoring to get the Whites, Howards, Bakers, Philpots and others involved in the fighting to agree that they will do all in their power to prevent further bloodshed. These men are said to take kindly to this idea and when each faction is assured that no one of its side will receive harm at the hands of the enemy, it is thought peace will be permanently restored.

A FATAL SHOOTING.

Brothers Mortally Wounded by a Man, Who Escaped—They Quarreled Over a Very Trivial Matter.

Burton and mortally wounded Mac Burton, brother of John. Casey is still at large. A warrant has been sworn out and officers are in pursuit.

The difficulty occurred between Mac Burton and Casey over the picking of a banjo, in which Casey shot Mac Burton through the neck. When he went to make his escape John Burton caught Casey and was shot through the heart, dying instantly. All are men with families.

BRADLEY MEANS BUSINESS.

The Governor Is Determined to Restore Peace in Clay County Regardless of Cost.

FRANKFORT, Ky., June 18.—Gov. Bradley has not the power to declare martial law in the county of Clay, where a reign of terror exists as the result of the assassination of Tom Baker last Saturday, but he intends to restore order there, regardless of cost. The governor received a letter Friday afternoon from Circuit Judge Eversole denying that he had, as reported, adjourned court at Manchester because of the fear of personal violence. The judge says that court was adjourned because he realized that justice could not be meted out with affairs in such chaotic condition. He says that he will hold a special session in Clay within the next few weeks. The troops will probably be sent back then.

If order can not be restored and those under indictment tried, a special session of the legislature would be the only remedy. Under the present Kentucky law the governor can not even appoint a special judge until the regular judge has refused to sit and the circuit clerk notifies him that the members of the bar have failed to elect. In Clay county the circuit clerk is a member of the White faction and, if Judge Eversole should decline to sit, he would practically have the selection of his successor. If an extra session were held the county of Clay would either be abolished and divided up among adjoining counties, or the governor would be given power to appoint special judges at will and special grand juries from other counties to go to a lawless county and investigate and find the lawless men.

The governor Friday night declared to be false the special dispatch sent out from Lexington Thursday that he was equipping soldiers in Eastern Kentucky to go to Harlan county. The condition there is much better than it is in Clay county.

Reward for Baker's Murderer.

The Fighting Mountaineers.

MIDDLESBORO, Ky., June 18.—In another collision between several of the Lee and Taylor factions on Prickett's creek, Harlan county, a man named Speeder was shot. A party composed of Harlan county citizens are on their way to the scene of strife, and will beg the fighting mountaineers to return to work.

New Kentucky Bank.

COLUMBIA, Ky., June 21.—A stock company composed of Jamestown and Columbia capitalists was organized at Jamestown, to conduct a banking business. N. H. W. Aaron, commonwealth's attorney, was elected president and W. A. S. one, a prominent Russell county attorney, cashier. Capital, \$15,000.

All Quiet at Manchester.

LONDON, Ky., June 21.—Several lawyers came here from Manchester Monday. They say all is quiet there. Efforts are apparently being made to draw members of Gen. T. T. Garrard's family into the feud.

Sixteen Yearlings to Be Sold.

Think Him a Good Catch.

MIDDLESBORO, Ky., June 20.—Chief of Police Ball Monday arrested J. N. Weaver, at Knoxville, on a charge of forgery. He is said to have forged a check on W. M. Carter, of Bristol, Tenn. Weaver is said to be wanted on a charge of horse stealing in Virginia.

LEXINGTON, Ky., June 17.—Representatives of local national banks at a meeting Thursday, decided to resist assessment on their stock for city taxes.

More Imitations.

LAND STOCK CROP

It is estimated that \$3,650,000 will be offered in stakes and prizes for trotters and pacers this year.

Joe Trayer, of Lexington, refused Bowerman Bros.' offer of \$4,000 for his two-year-old colt, The "Cramp," by Jay Bird.

A carload of western Aberdeen-Angus cattle, averaging 1,500 pound were recently sold in the Chicago market at \$5.70 per hundred.

The 400 pound hog has gone forever, and the use of cotton seed oil for lard is responsible for it. Lard can be grown more cheaply on a cotton plantation in Dixie than on a hog.

To cure piles, STRIKE AT THE ROOT—that's the way. DeWitt's Witch Hazel Salve STRIKES AT THE ROOT—it removes the CAUSE quickly and permanently. Don't squander time and money in a vain effort to remove the EFFECTS.

Storms Drug Store. Kentucky breeders have furnished 19 young thoroughbred for export to England during the past month. Those taken contained nearly all American-bred blood.

At a public sale of Shorthorn cattle held by Benjamin Whittitt & Son on June 1st at Preemption, Ill., 22 females averaged \$116; 16 bulls averaged \$102.50; a total average of \$110.26.

The price of hogs still remain about the same. Good hogs always bring a good figure. From the market reports, farmers should begin to realize at this time, that a poor pig is dear at any price.

You get up in the morning tired, a bad taste in the mouth and a headache. Know what's the matter? Biliousness, fake DeWitt's Little Early Risers. They regulate the liver and cure constipation pleasantly and promptly. Never gripe.

Storms Drug Store. With a herd of Jerseys which will produce 250 pounds of butter each a year, the element of uncertainty as to financial results is pretty well eliminated; at 25 cents a pound the income would be \$62.50, which is better than beef cattle can do.

Too often the wheat straw is sold at less than half its fertilizing value. Do not let it go unless you are sure you are getting all it is worth, and can, therefore, afford to feed your land in some other way than by keeping it as an absorbent for the manure.

There is a time for all things. The time to take DeWitt's Little Early Risers is when you are suffering from constipation, biliousness, sick-headache, indigestion or other stomach or liver troubles.

Storms Drug Store.

The farmer can grow cheap foods in the summer and convert them into high priced butter in the winter, and find a ready market; but he must have fresh cows, good shelter and ample food, and all prepared in season. Otherwise the best results must not be expected.

At the dispersion sale of the Linden Grove Herd of Jerseys, owned by T. S. Cooper at Coopersburg, Pa., May 30, three stock bulls averaged \$400, each 36 cows, \$270.28 each; 23 heifers, \$176.08 each; 15 young bulls, \$152 each, and 18 unweaned calves, \$78.23 each.

If inclined to run down in flesh because giving much milk, cows should be given carbonaceous food, like corn meal, to keep them in condition. Of course, they will then eat less coarse food, and the cost will be increased, but cows like a variety of food, and will digest more if they have it.

Hardly a day passes, in families where there are children, in which BALLARD'S SNOW LINIMENT is not needed. It kindly cures Cuts, Wounds, Bruises, Burns and Scalls. Price 25 and 50cts. C. C. & J. E. Storms.

It is a mistake to have a falling of in milk at the time of short pasture. The advantages from soiling crops are. Less land will maintain a given number of cattle, the food supply will be better regulated, the animals will not waste energy in searching for food, and the manure can all be saved and applied to the soil.

At the last meeting of the National Saddle Horse Breeders' Association it was decided that the Association should offer two prize cups of value \$100 and \$50 respectively—the first for class saddle stallions, mares or geldings over three years old; the second for class under three years old.

If you are interested in horses, you should subscribe for the American Stock Farm, Lexington, Ky. The price is \$2.00 per year, but you can secure it from now until January 1, 1900 for \$1.00, if you will mention this paper when writing.

The farmers are really getting behind on the score of humane treatment of horses. The city horsemen of all classes now lead the way in abolishing the cruel check rein and the useless blind bridle. The handsome carriage teams, heavy draft horses, express and cab animals almost universally have the free use of their heads and eyes. The humane societies have had much to do with this.

An exchange knows a farmer who plants onions and potatoes in alternate rows, the onion being so strong that they bring tears to the eyes of the potatoes in such volume that the roots of the viner are kept moist and a big crop raised in spite of the drought. The same farmer has a scheme for raising custard pies by crossing the egg plant with the willk weed. After all he hardly equals the Jellico man who crossed his honey bees with lightning bugs so they could see to work at night.—Livingston Colonel.

If the predisposition to worms in children is not cured they may become emaciated, weakly and in danger of convulsions. WHEAT'S CREAM VERMIFUGE is the most successful and popular remedy. Price 25 cents.

C. C. & J. E. Storms. Press dispatches announce that the farmers of the United States, especially those interested in corn and wheat growing, are working up a combination having for its object the storing and holding of their grain indefinitely, so that it can be placed on the market when prices are satisfactory. The plan has been receiving attention through the grange and other farmers' organization for several years. If co-operation of the farmers generally can be secured, they can, to a large extent, control the grain market. Such a movement should receive the co-operation of all farmers, but any arrangement made for storing should specially provide that millers should not be allowed to grind it up without paying for it, as was so generally done with the last two crops.—Farmers Home Journal.

CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

"Cancer is hereditary in our family, my father, a sister and a aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Idol, Winston, N. C.
